The Great Corn Loosener of the Age.
Never Fails. Painless.

A corn mashed, squeezed and crushed, all day long, in between two toes! You can try the desperate.

it out and fall. On you can try the sensible, peaceful, painless, easy way and use "Gels-It." It's easy for "Gels-It" to remove corns in hard-to-get-at places. It's a liquid—a wonderful painless formula—it has never been successfully imitated. It settles on the corn, and dries immediately. Instead of digging out the corn, you peel it out painlessly. There's no sticky plaster that doesn't stay "put," no salve that irritates or rubs off. You reach the corn easily with the little glass rod in the cork of every "Gels-It" bottle. It does not hurt the true flesh. Try it, trot and smile! It's a blessing, never fails. "Gels-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Six of the proposed houses are to be single dwellings of the cottage type, the other four double dwellings. Just when work will be commenced on the new structures will not be known for a little while, but that they are to be built means that the Connecticut Mills company has in mind the continued expansion of a section of Danielson that has shown remarkable development during the past five years.

Many owners of buildings along the line of march of the parade planned for May 16 will decorate them. It was evident Monday, when concerns who are taking orders for decorating about town found business particularly promising.

Wait for the New Hudson Super-Six Here Soon—Price \$1975

Prompt Deliveries Assured Early Buyers—It is a
Perfected Development of the Car You Know So Well

A new Hudson Super-Six is coming. It reveals how four years' experience with 60,000 cars has enabled Hudson engineers to free it from many of the annoyances regarded as inevitable to all cars. It embodies the qualities which men said would make it the greatest car known.

It Is Worth Waiting For

Production on large scale is now under way.

Dealers will have their demonstrating cars within a few days.

You must not fail to see the new Hudson Super-Six.

Think of the history of earlier models. They have made a place in every branch of motor car use that has not been matched.

The first Hudson Super-Six, four years ago, increased motor power by 72% without added weight. It retained all the simplicity of the six. It minimized vibration.

Proved In A Thousand Ways

You remember how endurance was proved. Nothing to equal Hudson Super-Six records of performance had ever been known. Most of those stand today as achievements that no other car has been able to match.

But one thing those feats did, you perhaps do not know. They showed ways for development of subsequent models that find their expression in the new car soon to be offered.

taken by automobile cortege to Swan Point cemetery, near Providence, where a funeral service was conducted at 1:30, at the chapel. This service was attended by a large number of relatives and friends. The bearers were Dr. F. A. Morrell, G. Harold Gilpatrick, George E. Dresser and Silas M. Wheelock, of Putnam.

Relative to the collapse of the big retaining wall in Pomfret street, a part of a trunk line highway, this question was asked on Monday by one of this city's attorneys: We'll assume that the city refuses to meet the cost of rebuilding the wall; what, then, will the state do about it?

The city does not want to meet the expense of restoring the wall. It has been said here that the state disclaims responsibility for making the necessary repairs.

In support of its claim that the burden of expense should rest upon the state the city points to a statute that says that all state road (rank line) repairs shall be borne by the state. Further, if the city persisted in refusing to restore the wall, the attorney who discussed the matter on Monday says, the trunk line cannot be safely used and a situation created that will be practically certain to bring some definite decision in the matter quite promptly. At the present time traffic is being detoured around the danger spot.

City officials feel that they do not want to put Putnam to an expense of from \$3500 to \$4500 that they feel should be borne by the state.

Judge Geisler had business waiting for him Monday morning when the hour came for opening the city court. One Andrew Brothers was charged with having been intoxicated. Brothers represented himself as a veteran of the Spanish American war and as having come recently from the soldiers' home at Washington, D. C. He stopped in Putnam to slack a thirst and got into difficulties. He described the whiskey being sold here as having a terrific punch, which explanation has become a favorite recently with those who find themselves in the brick building across the river. Brothers' funds amounted to \$4.38. Judge Geisler separated him from \$4 of this, \$3 as a fine, \$1 as costs.

John Brennan also was in court. He was charged with intoxication and with having assaulted Blanche Spink, a miss of about 14. It was brought

out in court that Brennan and the Spink girl court on the same floor at a rooming house on Pomfret street. Brennan, objected to the noise that some young people were making out in the hallway, disturbing his slumbers, and he proceeded to quiet them down. The assault charge was the result. Judge Geisler placed the case on file.

May 11 there is to be a memorial service at the chapel at Pomfret school for the 15 former students at the school, who gave their lives to their country in the recent war, nearly all of them killed in action. As the memorial service is planned for the day following the annual reunion of the Alumni, it is assumed that there will be a large number of Pomfret school men in attendance to pay tribute to their heroic dead.

The plans for the Alumni reunion, May 10, include a baseball game and it was stated Monday that the school crew, which is now in practice, may have a race scheduled over the usual course on the Quinebaug river.
